

Low Volume

PS5

www.pressuresealmachines.com

The PS5 fits easily into any office environment, for low volume on demand sealing of your pre-folded forms or as support for a larger system. It's extremely easy to use. If you can fold it, the PS5 will seal it! With the pressure seal process there's no heat, therefore no mess or risk of burns. By sealing up to 40 documents per minute, the PS5 is much faster than inserting and hand sealing envelopes. With a reverse option any mis-folded or damaged documents can be instantly retrieved.

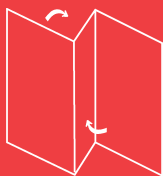

Technical Specification
