

Cabinets

www.pressuresealmachines.com

Custom built cabinet for PS25, PS100, PS300 and PS400 and other office equipment in your office or mailroom.

These cabinets comes with sturdy casters and guarantee high shock resistance during normal use. They are strong enough to support a desktop pressure sealer such as the PS25, PS100, PS300 or PS400.

Unlock the cabinet's wheels and move it together with the machine. The twin hinged doors close to leave your office looking neat and uncluttered, and the shape, design and color of the cabinet is perfectly designed to match the specific style of your machine.
